

Post-incident procedures following death or serious injury - Guidance overview

This page is from APP, the official source of professional practice for policing.

First published 6 July 2020

This APP includes guidance on post-incident procedures, management, welfare and legal issues. The guidance outlines provision of accounts by officers and staff in a broadly chronological manner, provides responsibilities for key roles and sets out approaches to organisational learning and debriefing. The information provided is relevant to any investigation, whether carried out by the force's professional standards department (PSD) or by the relevant independent investigative authority (IIA).
